EVERCRETE team meets with Sheikh Hazza Bin Zayed Al Nahyan at ROADEX 2006, Abu Dhabi.

March 20th, 2006 – Exhibiting at the second Abu Dhabi International Road Exhibition and Conference; **ROADEX 2006**, Evercrete were proud to convey the exciting potential of Evercrete's products to his Royal Highness, Sheikh Hazza Bin Zayed Al Nahyan, formally opening the ROADEX event.

With 180 exhibitors from 32 countries; a 15% increase on the previous year, the exhibition delivered on its promise of uniting some of the best and latest technologies from around the world, specific to the road industry. An all encompassing forum, ROADEX exhibitors and attendees, tackled some of the critical issues facing the growth of the Middle East's road industry, centering on roads, tunnels, bridges, traffic, parking and equipment.

"For Evercrete the response at ROADEX was in a word - quality. We were visited by more than 100 professionals ranging from consultants, engineers, architects and contractors. The decision makers of the construction industry all found Evercrete to be a much needed product, able to protect and preserve concrete structures."

"The overall feedback has been tremendous and we are signing up with new distributors. ROADEX has opened doors for Evercrete in the Middle East, with the construction world inviting us in!" commented Leonorah Glatthaar, Managing Director of Evercrete International (Asia).
