EVERCRETE Participates at the Hong Kong Building Surveyors Conference 2006

The annual Building Surveyors Conference organized by The Hong Kong Institute of Surveyors (HKIS), was held on September 16th, 2006 at the Four Seasons Hotel in Hong Kong.

Evercrete participated in the conference and shared a booth with its exclusive distributor in Hong Kong, Galaxy Contracting Limited, where impressive product demonstrations were shown to over 200 surveyors.

The conference provided a platform for professional surveyors to learn more about Evercrete's special concrete solutions to specify and apply in their future projects

Mr. David Chan, Chairman of Building Surveying Division during 1990-1991, highly recommended the Evercrete technology and concept to improve the long term durability of concrete structures and gave his stamp of approval by saying - "It is not just a waterproofing technology; it is a total solution for concrete protection which can last longer and forever."

The annual Building Surveyors Conference provided Evercrete with a great opportunity to meet today's leading professionals and decision makers in the industry and we wish to extend our gratitude to HKIS.
